

A close-up photograph of a single, vibrant red poppy flower in full bloom. The flower is positioned slightly to the right of the center. Its petals are a deep, saturated red with visible veins. The flower is set against a background of tall, thin grasses that are out of focus, creating a bokeh effect. The overall color palette is muted, with the red of the flower standing out against the greys and greens of the background. The lighting is soft, highlighting the delicate texture of the petals.
